HOT WATER THE **BEST SOUR ACID BOWEL MEDICINE**

Says Glass of Hot Water Before Breakfast Washes Poisons From System.

Physicians the world over recom mend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink

each morning before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation. should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounce

Speedy and Easy Riding

There's little comfort in most low priced cars. You can't use their speeds. They jostle you—they ride roughly—they don't hold the road.

The \$635 Overland is different. It is not only the speediest of low priced cars-

But you can use the full speed of its powerful motor when you need it.

It has long 42-inch, easy riding, shock absorbing cantileverrear springs. In addition the 75 B Overland is a longer car-104inch wheelbase. And it has 4-inch tires.

Its smoothness and ease of riding at any speed would do justice to a much larger and heavier car.
